

Canadian Health Measures Survey: Fact sheets and tables related to select laboratory data, 2009 to 2011

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, November 29, 2012

Health Fact Sheets and tables related to select laboratory data released on November 21, 2012, are now available. Health topics covered include cardiovascular health, diabetes, infection markers, kidney health and nutritional status.

Definitions, data sources and methods: survey number 5071.

The *Health Fact Sheets* (82-625-X, free) being released are: "Cholesterol levels of Canadians, 2009 to 2011," "Iodine status of Canadians, 2009 to 2011," "Vitamin B12 status of Canadians, 2009 to 2011," "Metabolic syndrome in Canadians, 2009 to 2011" and "Iron sufficiency of Canadians, 2009 to 2011."

The publication *Canadian Health Measures Survey: Cycle 2 Data Tables* (82-626-X, free) is now available from the *Key resource* module of our website under *Publications*. The data in Tables 1 to 32 that were released on September 21, 2012, have been updated. Tables 33 to 56 contain the laboratory data released on November 21, 2012.
