

Commercial Software Price Index, February 2013

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, March 28, 2013

The Commercial Software Price Index (CSPI) increased 1.1% in February compared with the previous month. This was the third consecutive monthly increase for the index.

Year over year, the CSPI was up 2.6%.

Note to readers

The Commercial Software Price Index is a monthly series measuring the change in the purchase price of pre-packaged software typically bought by businesses and governments. This release presents data that are not seasonally adjusted, and the indexes published are subject to a six-month revision period after dissemination of a given month's data.

This index is available at the Canada level only.

Available in CANSIM: table 331-0009.

Definitions, data sources and methods: survey number 5068.

The Commercial Software Price Index for March will be released on April 26.
