

# Construction Union Wage Rate Index, November 2014

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, December 18, 2014

The Construction Union Wage Rate Index (including supplements) for Canada was unchanged in November compared with the previous month. The composite index increased 2.1% in the 12 months to November.

## Note to readers

*Union wage rates are published for 16 trades in 22 metropolitan areas for both the basic rates and rates including selected supplementary payments. The indexes (2007=100) are calculated for the same metropolitan areas and are published for those where a majority of trades are covered by current collective agreements.*

*The wage rates and indexes are subject to a 30-month revision period after dissemination of a given month's data. This is due to the length of time that can transpire between the expiration of a collective agreement and the ratification of a new collective agreement. The wage rates and indexes are not seasonally adjusted.*

Available in CANSIM: tables [327-0003](#) and [327-0045](#).

Definitions, data sources and methods: survey number [2307](#).

The Construction Union Wage Rate Index for December 2014 will be released on January 22, 2015.
