

Computer and peripherals price indexes, February 2015

Released at 8:30 a.m. Eastern time in *The Daily*, Friday, March 27, 2015

Prices for commercial computers increased 0.8% from January to February and consumer computer prices were up 0.4%. In the case of computer peripherals, monitor prices increased 6.0% and printer prices rose 0.2%.

Year over year, prices for commercial computers declined 0.1% and prices for consumer computers were down 2.3%. Monitor prices increased 6.4% and printer prices were up 0.2%.

Note to readers

The computer and peripherals price indexes are monthly series measuring changes over time in the price of computers and computer peripherals sold to governments, businesses and consumers. With each release, data for the previous six months may have been revised. The indexes are not seasonally adjusted.

These indexes are available at the Canada level only.

Available in CANSIM: tables [331-0010](#) and [331-0011](#).

Definitions, data sources and methods: survey number [5032](#).

The computer and peripherals price indexes for March will be released on April 24.
