

# Inter-corporate ownership, first quarter 2015

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, April 23, 2015

---

The first quarter issue of the product *Inter-corporate Ownership* is now available.

This product is a directory of corporate ownership in Canada that provides information on every individual corporation that is part of a group of commonly controlled corporations with combined assets exceeding \$600 million or combined revenue exceeding \$200 million. Individual corporations with debt obligations or equity owing to non-residents exceeding a net book value of \$1 million are covered as well.

Ultimate corporate control is determined through a careful study of holdings by corporations, the effects of options, insider holdings, convertible shares and interlocking directorships.

The information presented is based on non-confidential returns filed by Canadian corporations under the *Corporations Returns Act* and on research using public sources such as Internet sites. Entries for each corporation provide both the country of control and the country of residence.
