

# Supply and disposition of refined petroleum products, January 2015

Released at 8:30 a.m. Eastern time in *The Daily*, Monday, April 27, 2015

---

## Receipts and imports rise

Canadian refineries received 8.8 million cubic metres of crude oil in January, up 7.2% compared with the same month in 2014.

Refinery receipts of domestic crude oil totalled 5.9 million cubic metres, an increase of 8.4% from the same month a year earlier.

Crude oil imports were 2.8 million cubic metres in January, up 4.8% from January 2014. Imports represented 32.4% of total crude oil received at refineries in Canada.

## Sales fall

Domestic sales of refined petroleum products totalled 8.7 million cubic metres in January, down 1.4% from January 2014.

Refinery production totalled 9.8 million cubic metres, up 4.3% from January 2014.

### **Note to readers**

*The Monthly Refined Petroleum Products survey collects data on the activities of all Canadian refineries involved in the production of refined petroleum products (North American Industry Classification System [NAICS] 324000) and of selected major distributors of these products (NAICS 412000).*

*Domestic sales include all sales by reporting companies, excluding exports and sales to other reporting companies. Refinery production is measured at a net-yield level, for example, after exchanges between refinery processes.*

*Refinery receipts of crude oil and equivalent hydrocarbons (condensates and pentanes plus) are for refinery consumption or storage from domestic and foreign sources.*

*Data from January 2013 to December 2014 have been revised.*
