

Experimental quarterly estimates of business entry and exit, third quarter 2015

Released at 8:30 a.m. Eastern time in *The Daily*, Friday, January 8, 2016

Experimental quarterly estimates of the number of firm entries and exits in the business sector, with associated employment, broken down by North American Industrial Classification System (2012) industry, for the third quarter are now available upon request.

Revised data for the first and second quarters are also available, along with historic quarterly data for the period from 2001 to 2014.

Note to readers

The data mentioned in this release are part of an experimental quarterly program and are subject to revision. Later this year, revised historic estimates will be published for the period from 2001 to 2015.

Definitions, data sources and methods: survey numbers 2612 and 8013.
