

# Provincial and territorial economic accounts: Government revenue, expenditure and budgetary balance, 2014

Released at 8:30 a.m. Eastern time in *The Daily*, Monday, May 16, 2016

---

Detailed government revenues, expenditures and budgetary balance by province and territory, for the years 2007 to 2014, are now available.

These estimates are an extension of the provincial and territorial economic accounts, released in November 2015. They are presented in CANSIM table 384-0047 in a structure similar to the budgetary balance tables in the national income and expenditure accounts (CANSIM 380-0080), with detailed revenues, detailed expenditures, surplus/deficit and net lending for each government subsector and for each province and territory.

**Available in CANSIM: table [384-0047](#).**

**Definitions, data sources and methods: survey number [1902](#).**

Additional information can be found in the article, "[Deriving revenue, expenditure and budgetary balance of the government sector by province and territory](#)," which is part of the *Latest Developments in the Canadian Economic Accounts* series ([13-605-X](#)) and is now available from the *Browse by key* resource module of our website, under *Publications*.
