

Supply and use tables, 2014

Released at 8:30 a.m. Eastern time in *The Daily*, Wednesday, November 8, 2017

The national, provincial, and territorial supply and use tables are now available for 2014.

Supply and use tables present an integrated picture of the economy in terms of industries, products, and final use categories. The tables illustrate the flows of goods and services from their origin (domestic production or imports) to their destination (inputs by industries to produce other products; capital investments by industries; changes in inventory; exports; or final use by households, governments, and non-profit institutions).

Available in CANSIM: tables [379-0029](#), [381-0030](#), [381-0031](#), [381-0033 to 381-0035](#), [386-0003](#) and [386-0005](#).

Definitions, data sources and methods: survey number [1401](#).

The product *Supply and Use Tables*, 2014 ([15-602-X](#)) is now available for download.

The product *Interprovincial and International Trade Flows*, 2014 ([15F0002X](#)) is now available upon request.
