

Construction Union Wage Rate Index, December 2017

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, January 25, 2018

The Construction Union Wage Rate Index (including supplements) for Canada was unchanged in December compared with the previous month. The composite index increased 1.0% in the 12 months to December.

Note to readers

Union wage rates are published for 16 trades in 22 metropolitan areas for both the basic rates and rates including selected supplementary payments. The indexes (2007=100) are calculated for the same metropolitan areas and are published for those where a majority of trades are covered by current collective agreements.

The wage rates and indexes are subject to a 30-month revision period after dissemination of a given month's data. This is due to the length of time that can transpire between the expiration of a collective agreement and the ratification of a new collective agreement. The wage rates and indexes are not seasonally adjusted.

A Historical Timeline of Canadian Producer Price Statistics

"A Historical Timeline of Canadian Producer Price Statistics," which is part of Statistics Canada — Infographics (11-627-M), was created to showcase the key milestones in the history of Canadian producer price statistics. This historical timeline contains answers to questions such as: Who collected Canada's first statistics? What do Canadian producer price indexes measure?

Infographic: Producer Price Indexes at a Glance

The infographic "Producer Price Indexes at a Glance," which is part of Statistics Canada — Infographics (11-627-M), demonstrates how producer price indexes for goods and services are calculated and why they are important for the Canadian economy.

Available in CANSIM: tables [327-0003](#) and [327-0045](#).

Definitions, data sources and methods: survey number [2307](#).
