Released at 8:30 a.m. Eastern time in *The Daily*, Monday, February 12, 2018

---

The fourth quarter 2017 issue of *Inter-corporate Ownership* is now available.

This product is a directory of corporate ownership in Canada. It provides information on each individual corporation that is part of a group of commonly controlled corporations with combined assets exceeding \$600 million, or with combined revenue exceeding \$200 million. Individual corporations with debt obligations or equity owing to non-residents exceeding a net book value of \$1 million are covered as well.

Ultimate corporate control is determined through a careful study of holdings by corporations, the effects of options, insider holdings, convertible shares and interlocking directorships.

The information presented is based on non-confidential returns filed by Canadian corporations under the *Corporations Returns Act* and on research using public sources such as Internet websites. Entries for each corporation provide both the country of control and the country of residence.
