

School board revenues and expenditures, 2016

Released at 8:30 a.m. Eastern time in *The Daily*, Wednesday, February 13, 2019

Data are now available for school board revenues and expenditures for 2016.

Data are from the Survey of Uniform Financial System – School Boards. The objective of this annual survey is to collect financial information on school boards and districts across Canada. These financial statistics are collected from each province and territory and are converted to a standard classification and to a calendar year.

School board expenditures include both operating and capital spending. Operating expenditures are salaries, benefits, supplies and services, fees and contractual services, and other operating costs. These expenses can be further broken down by function (instruction, administration, transportation, school facilities and other categories).

Available tables: [37-10-0063-01](#) to [37-10-0065-01](#) .

Definitions, data sources and methods: survey number [3119](#).
