

# Salary and salary scales of full-time teaching staff at Canadian universities, 2011/2012 to 2015/2016 (final)

*Released at 8:30 a.m. Eastern time in The Daily, Friday, March 1, 2019*

---

Final data are now available on full-time university academic teaching staff in public universities for the years 2011/2012 to 2015/2016 from the Full-time University and College Academic Staff System (FT-UCASS). A partial file of these data was released on [September 24, 2018](#).

This release is closing the data gap left by the cancellation of the survey in 2012 by Statistics Canada in order to meet its saving targets. The survey was re-instated in September 2016. During the period of the survey cancellation (2011/2012 to 2015/2016), UCASS data were collected independently by participating universities in association with the National Vice-President's Academic Council. This information plus estimates for those institutions that did not participate in the independent data collection are included in this release.

In addition, the UCASS database (1970/1971 to 2017/2018) has been updated to include the 2016 Classification of Instructional Program and updated country codes.
