

Forage seed usage, 2018

Released at 8:30 a.m. Eastern time in *The Daily*, Friday, March 8, 2019

Forage seed usage data are now available for 2018.

Note to readers

Forage seed usage data help to evaluate trends in the usage of improved forage seed varieties, by quantifying the volumes of seeds shipped to Canadian customers. Data are available at the provincial level, in both imperial and metric units of measure (pounds and kilograms), for the years 2008 to 2018.

Data for 2018 are from the Forage Seed Usage Survey, which was conducted from October 12, 2018, to February 1, 2019. Data for 2018 cover the reference period from July 1, 2017, to June 30, 2018.
