Sustainable Development Goals

On January 1, 2016, the world officially began implementation of the [2030 Agenda for Sustainable Development](#)—the United Nations' transformative plan of action that addresses urgent global challenges over the next 15 years. The plan is based on 17 specific sustainable development goals.

The Sustainable Development Goals Data Hub is an example of how Statistics Canada supports the reporting on the Global Goals for Sustainable Development. It will be used in helping to measure the following goals:
