

International Travel Survey: Public use microdata file, 2017

Released at 8:30 a.m. Eastern time in *The Daily*, Tuesday, December 24, 2019

The International Travel Survey (ITS) public use microdata file for 2017 is now available upon request.

This public use microdata file (PUMF) contains data on a wide variety of variables collected from the 2017 ITS that cover the characteristics of Canadian residents travelling abroad and residents of foreign countries travelling in Canada: travel expenditures, length of stay, type of transportation, purpose of trip, accommodation used, places visited, and expenditures by category.

Note to readers

The International Travel Survey (ITS) provides statistics on travellers to and from Canada, their characteristics of travel, and spending levels.

A user guide and data dictionary are also available with the ITS public use microdata file.

Public use microdata files are files that contain the responses of individual respondents to a survey, but that have been modified to ensure the anonymity of the respondents.

Definitions, data sources and methods: survey number 3152.

The product *International Travel Survey Microdata File, 2017* ([66M0001X](#)), is now available upon request.
