

Electric Power Selling Price Index, December 2019

Released at 8:30 a.m. Eastern time in *The Daily*, Tuesday, February 11, 2020

The Electric Power Selling Price Index (2014=100) is now available for December.

Note to readers

The Electric Power Selling Price Index is a monthly series that measures the price movements of sales of electricity by distributors to commercial and industrial users. Data are available for Canada, by region and by province.

With each release, data for the previous 12 months may have been revised. The index is not seasonally adjusted.

Products

Statistics Canada has launched the [Producer Price Indexes Portal](#) as part of a suite of portals for prices and price indexes. This webpage provides Canadians with a single point of access to a wide variety of statistics and measures related to producer prices.

The video "[Producer Price Indexes](#)" is available on the Statistics Canada Training Institute webpage. It provides an introduction to Statistics Canada's producer price indexes—what they are, how they are produced and what they are used for.

Available tables: table [18-10-0204-01](#).

Definitions, data sources and methods: survey number [2325](#).
