

# Health Indicators, July 2020

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, July 30, 2020

A new edition of the publication *Health Indicators* (**82-221-X**) is now available. It includes updated health region-level population estimates and dependency ratios.

The *Health Indicators* publication includes over 80 indicators that measure the health of the Canadian population and the effectiveness of the health care system. Designed to provide comparable information at the health region and provincial and territorial levels, these data are produced from a wide range of the most recently available sources.

## Note to readers

*Health regions* are defined by the provinces and territories and represent administrative areas or regions of interest to health authorities.

**Available tables:** [17-10-0133-01](#) and [17-10-0134-01](#).

**Definitions, data sources and methods:** survey numbers [3604](#) and [3901](#).

The publication *Health Indicators, 2020* (**82-221-X**), is now available.
