

Personal Protective Equipment Survey, July 2020

Released at 8:30 a.m. Eastern time in *The Daily*, Friday, August 14, 2020

Data for the Personal Protective Equipment Survey are now available for July. This survey provides estimates of personal protective equipment (PPE) demand and supply, by type of PPE. Data are available at the Canada and regional levels, and are grouped by industry.

Note to readers

A new study, "[Gearing up to restart: Businesses' need for personal protective equipment](#)", is now available. Using new data for July 2020 from the Personal Protective Equipment Survey, the study examines businesses' demand for Personal Protective Equipment and concerns about lack of supply.

A new infographic titled "[Businesses' Demand for Personal Protective Equipment During COVID-19](#)" is also available, and presents estimates of Personal Protective Equipment (PPE) demand by Canadian businesses amid the COVID-19 pandemic. The Personal Protective Equipment survey measures the demand in PPE in many industries in Canada.

Definitions, data sources and methods: survey number [5332](#).

Available tables: [13-10-0786-01](#) and [13-10-0787-01](#).
