

Labour market outcomes for college and university graduates, 2010 to 2016

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, November 5, 2020

Today, Statistics Canada is releasing data on labour market outcomes for college and university graduates (graduating classes of 2010 to 2016). This release includes information on the median employment income by educational qualification, field of study, age group, gender, and status of student in Canada—for Canada, the provinces and the territories.

The data used for the calculation of graduate outcome indicators are derived from the [Postsecondary Student Information System](#) integrated with the [T1 Family File](#).

Available tables: [37-10-0114-01](#), [37-10-0115-01](#), [37-10-0122-01](#) and [37-10-0156-01](#) to [37-10-0158-01](#) .

Definitions, data sources and methods: survey numbers [4105](#) and [5017](#).

The technical reference guide for this release, entitled "[Labour market outcomes for college and university graduates, 2010 to 2016](#)," is now available.

The data visualization tool, entitled "[Labour market outcomes for college and university graduates: Interactive tool](#)," is also available.
