

# Gender Results Framework: Data table on core housing need

Released at 8:30 a.m. Eastern time in *The Daily*, Wednesday, December 9, 2020

Statistics Canada's Centre for Gender, Diversity and Inclusion Statistics has released an enhanced data table on the topic of core housing need. These statistics will be used by the [Gender Results Framework](#), a whole-of-government tool designed to track gender equality in Canada.

Using data from the 2006 Census of Population, the 2016 Census of Population and the 2011 National Household Survey, the table shows the proportion of the population in core housing need by selected economic family characteristics.

This table includes a breakdown by province and territory, age group as well as other demographic characteristics such as population groups designated as visible minorities and Indigenous identity.

These new data will soon be housed in the [Gender, Diversity and Inclusion Statistics Hub](#).

## Note to readers

The table "Population in core housing need, by economic family structure and sex" ([39-10-0048-01](#)) is now available.

The document "Core housing need, 2016 Census" ([98-509-X](#)) is now available.

**Available tables:** table [39-10-0050-01](#).

**Definitions, data sources and methods:** survey number [3901](#).
