

# Government revenue attributable to tourism, 2012 to 2020

Released at 8:30 a.m. Eastern time in *The Daily*, Wednesday, November 17, 2021

Government revenue attributable to tourism data are now available for 2020. Data for 2012 to 2019 are revised, as a result of revisions to the National tourism indicators published in June.

## Note to readers

Government revenue is composed of receipts from taxes on incomes (that is, on employment earnings, corporate profits, net income of unincorporated business and government business enterprises), contributions to social insurance plans (that is, premiums for Canada/Quebec Pension Plan, Employment Insurance and workers' compensation), taxes on production and products (such as sales and property taxes), and from sales of government goods and services.

Available tables: [36-10-0461-01](#) to [36-10-0465-01](#) .

Definitions, data sources and methods: survey number [1910](#).

The [Economic Accounts Statistics](#) Portal, accessible from the *Subjects* module of our website, features an up-to-date portrait of national and provincial economies and their structure.
