Released at 8:30 a.m. Eastern time in *The Daily*, Tuesday, March 1, 2022

Data from the Staffing and Non-Partisanship Survey (SNPS) for 2021 are now available.

This survey is the result of a partnership between Statistics Canada and the Public Service Commission of Canada. Public service employees participated in the survey from March to May 2021.

In addition to information on key aspects of the staffing system and employees' understanding of their rights and responsibilities regarding political activities and non-partisanship, this cycle of the SNPS will contribute to a better understanding of the experience of staffing during the COVID-19 pandemic.
