

Fact sheet: Children eligible for instruction in the minority official language: A data ecosystem

Released at 8:30 a.m. Eastern time in *The Daily*, Wednesday, November 9, 2022

Today, Statistics Canada is releasing a new fact sheet titled "[Children eligible for instruction in the minority official language: A data ecosystem](#)." This product provides information on the data ecosystem the agency is developing to enhance the availability of data on children eligible for instruction in the minority official language (i.e., English in Quebec and French in the rest of Canada). This ecosystem is composed of a set of complementary data sources providing information on this population.

For more information regarding census data on the instruction in the minority official language, please consult [Instruction in the Minority Official Language Reference Guide, Census of Population, 2021](#).

Definitions, data sources and methods: survey number [3901](#).

The fact sheet entitled "[Children eligible for instruction in the minority official language: A data ecosystem](#)" is now available as part of the series *2021 Census Fact Sheets* (98-20-0001).
