

Electric Power Selling Price Index, October 2022

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, December 8, 2022

The Electric Power Selling Price Index (2014=100) is now available for October.

Note to readers

The Electric Power Selling Price Index is a monthly series that measures the price variations in sales of electricity by distributors to commercial and industrial users. Data are available for Canada, by region and by province.

With each release, data for the previous 12 months may have been revised. The index is not seasonally adjusted.

Statistics Canada launched the [Producer Price Indexes Portal](#) as part of a suite of portals for prices and price indexes. This webpage provides Canadians with a single point of access to a wide variety of statistics and measures related to producer prices.

The video "[Producer price indexes](#)" is available on the Statistics Canada Training Institute webpage. It provides an introduction to Statistics Canada's producer price indexes—what they are, how they are compiled, and what they are used for.

Available tables: [table 18-10-0204-01](#).

Definitions, data sources and methods: [survey number 2325](#).
