Released at 8:30 a.m. Eastern time in *The Daily*, Monday, August 21, 2023

Data on the shipments, production and market inventories of fertilizer in Canada are now available for the fourth quarter of the 2022/2023 fertilizer year.

Note to readers

Data on fertilizer statistics had higher rates of estimation for the fourth quarter of the 2022/2023 fertilizer year, as a result of higher non-response rates for this period. These data are subject to revision.

Shipments and production data are cumulative, compiled on a fertilizer year basis starting July 1 of a given year and ending June 30 the following year.
