

Labour market outcomes for college and university graduates

Released at 8:30 a.m. Eastern time in *The Daily*, Wednesday, April 17, 2024

Today, Statistics Canada is releasing data on labour market outcomes for college and university graduates for the graduating classes of 2010 to 2020. This release includes information on the median employment income by educational qualification, field of study, gender, age group and status of student in Canada, and is available at the national, provincial and territorial levels.

The data used for the calculation of graduate outcome indicators are derived from the [Postsecondary Student Information System](#) integrated with the [T1 Family File](#) and the [Administrative Personal Income Masterfile](#).
