Traffic Flow Dashboard, July 2024

Released at 8:30 a.m. Eastern time in The Daily, Monday, July 22, 2024

Statistics Canada has launched the Traffic Flow Dashboard as a source of experimental statistics to provide information on the traffic flow on selected road segments in the cities of Calgary and Toronto.

This dashboard shows traffic count data that are obtained from traffic camera imagery using a computer vision-based system developed at Statistics Canada's Data Exploration and Integration Lab.

Did you know we have a mobile app?

Download our mobile app and get timely access to data at your fingertips! The StatsCAN app is available for free on the App Store and on Google Play.

The Traffic Flow Dashboard, part of the series *Statistics Canada - Data Visualization Products* (**71-607-X**), is now available.
