

Monthly Survey of Manufacturing: Flash estimate, June 2024

Released at 8:30 a.m. Eastern time in *The Daily*, Wednesday, July 24, 2024

Statistics Canada is providing an advance estimate of sales in the manufacturing sector for June. Advance results indicate that total manufacturing sales decreased 2.6% in June. The largest decreases were in the chemical product and transportation equipment subsectors.

This estimate was calculated based on a weighted response rate of 71.0%. The average final response rate for the survey over the previous 12 months was 94.4%. As Statistics Canada continues to collect data for the June reference month, this early indicator is subject to a higher revision rate than our regular monthly release.

Did you know we have a mobile app?

Download our mobile app and get timely access to data at your fingertips! The [StatsCAN](#) app is available for free on the [App Store](#) and on [Google Play](#).

Note to readers

The percentage change is calculated using seasonally adjusted data in current dollars.

This flash estimate is a special product published to provide Canadians with timely information on the manufacturing sector. The official estimate of manufacturing sales for the month of June, which will be based on a more complete set of survey and administrative data, is scheduled for release on August 16.
