

# National and provincial input-output multipliers, 2021

Released at 8:30 a.m. Eastern time in *The Daily*, Thursday, November 14, 2024

The national and provincial input-output multipliers for 2021 are now available.

The national and interprovincial input-output model simulations for 2021 are also available.

## Did you know we have a mobile app?

Get timely access to data right at your fingertips by downloading the [StatsCAN app](#), available for free on the [App Store](#) and on [Google Play](#).

## Note to readers

*The input-output multipliers provide an estimate of the economic impact per dollar of output delivered to final demand (final consumption expenditures, capital formation or exports). The output is defined by industry according to the Input-Output Industry Classification. The economic impact is estimated for output, gross domestic product and its components, jobs and imports.*

**Available tables:** [36-10-0013-01](#), [36-10-0113-01](#), [36-10-0594-01](#) and [36-10-0595-01](#).

**Definitions, data sources and methods:** survey number [1401](#).

The service *Input-Output Model Simulations (National Model)* ([36230001](#)) is now based on the 2021 supply and use tables.

The service *Input-Output Model Simulations (Interprovincial Model)* ([36230002](#)) is now based on the 2021 supply and use tables.
