Indigenous languages: Visualization tool, 2021

Released at 8:30 a.m. Eastern time in The Daily, Tuesday, July 22, 2025

Today, Statistics Canada has launched an interactive data visualization tool, "Indigenous languages: Visualization tool."

Using data from the 2021 Census of Population, this interactive tool provides various statistics on Indigenous languages such as the number of speakers, people with an Indigenous mother tongue as well as people who acquired it as a second language. Data on home languages and silent speakers are also presented. Geographic breakdowns include Canada, the provinces, Inuit Nunangat and those living on and off reserve.

Did you know we have a mobile app?

Download our mobile app and get timely access to data at your fingertips! The StatsCAN app is available for free on the App Store and on Google Play.

The product "Indigenous languages: Visualization tool" (**71-607-X**) is now available.
