- ✓ **public education** campaign implemented
- ✓ **ongoing knowledge mobilization** symposia

¹ Confidence in institutions is measured on a scale from 1 to 5 and a rating of 4 or 5 is used to represent respondents that have confidence in the institution. Respondents were asked, "Using a scale of 1 to 5 where 1 means 'No confidence at all' and 5 means 'A great deal of confidence' how much confidence do you have in the institution? Data are from the fourth quarter of 2022 and exclude the territories.
² To make comparisons over time, cybercrime trend information includes only those police services who have consistently reported data for the entire period. For the years 2015 to 2022, the data exclude the Canadian Forces Military Police, the municipal police service of Calgary, the Ontario Provincial Police, the Quebec City Police, and the Saint John Police Force.
