

Student worksheet 1: Occupations in my family

Set up a time to question some members of your family about their work. You are looking for information about the full- or part-time positions that your immediate and extended family members have held in the past, hold currently or aspire to hold in the future.

Record your findings in the table below. Indicate your relationship to the person. Enter the job title in the appropriate column and specify whether the job is full-time (F/T) or part-time (P/T). Many people hold several jobs in their lifetime. If applicable, enter more than one job title in the column "Past occupation(s)." Our focus is on work for pay. If family members are not available, interview adult friends, neighbours or—if you are employed—your co-workers.

Relative	Past occupation(s)	Present occupation	Future occupation
