

Student worksheet 6: Full-time enrolment in schools

1. Using the *Canada Year Book 1927/1928*, examine the chart "Education in Canada since Confederation" on page 917 and read the summary provided. In your own words, describe how education changed in Canada in the time period between Confederation and 1925. Include changes in education and how these changes correlated to the population of Canada during this time period.

2. Using the *Canada Year Book 1927/1928*, Table 1 on pages 918 and 919, the *Canada Year Book 1947*, Table 2 on page 283, and the *Canada Year Book 1967*, Table 1 on page 351, describe the changes over time in student enrolment in school using statistics from each of the three time periods.

3. After examining all of the statistics, generalize about the changes in the enrolment of students during Canada's first 100 years.
