

Police-reported family violence in Canada, 2017

TRENDS

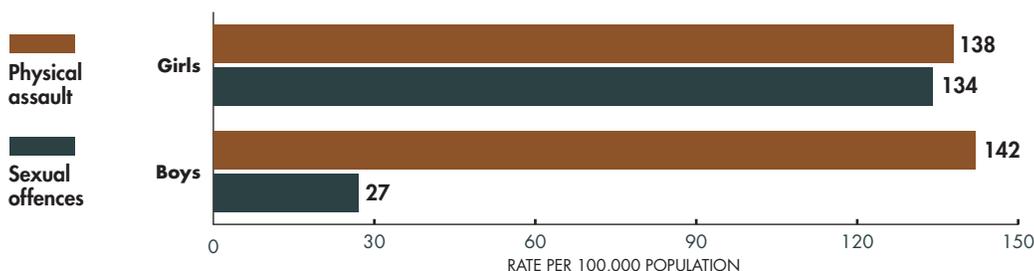

Rates of family violence against children and youth and of intimate partner violence have **declined since 2009.**

Rates for these types of violence, however, have **increased in recent years.**

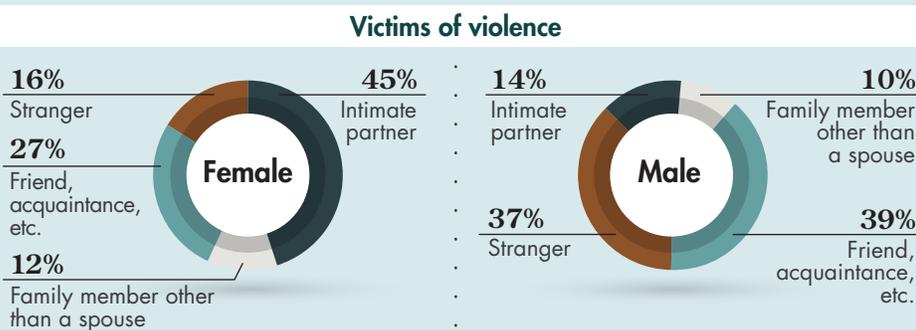

CHILD AND YOUTH VICTIMS

Rates of physical assault were similar for girls and boys. Meanwhile, the rate of **sexual offences** was **much higher for girls.**

VICTIMS OF INTIMATE PARTNER VIOLENCE

1/3 of police-reported violence involved intimate partners.

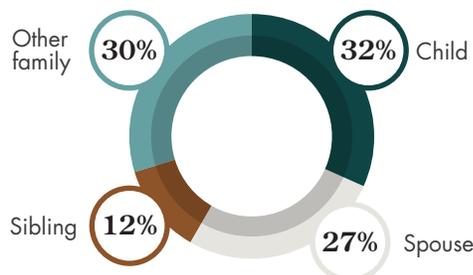

People aged **25 to 34** were most vulnerable to intimate partner violence, which **affected 640 people per 100,000** in that age group.

SENIOR VICTIMS

Among senior victims of family violence, almost **six in ten (58%) were female** and **four in ten (42%) were male.**

One in three senior victims of family violence was subjected to violence by their child.
