1. Includes full-time and part-time employees working in the waste management activities of surveyed municipalities.

2. Includes revenues collected specifically for waste management purposes by local governments and other public waste management organizations that provided waste management services. They do not include general municipal tax revenues. Revenues from the collection of municipal levies are included in this total; prior to 2008 these revenues were not specifically reported. Comparison of 2008 local government operating revenues with previous years is not recommended.

3. Includes current expenditures directed towards waste management services.

**Note(s):** Figures may not add up to totals due to rounding. This table includes local governments, waste management boards and commissions and provincial bodies responsible for the delivery of waste management services. No estimates have been made for non-surveyed municipalities.
