Monthly Aircraft Movements: Major airports – NAV CANADA Towers and Flight Service Stations, September 2017

Analysis

There were 506,030 aircraft take-offs and landings at the 91 Canadian airports with NAV CANADA air traffic control towers and flight service stations compared with 500,675 movements in September 2016.

Itinerant movements (flights from one airport to another) increased 2.1% in September 2017 on a year-over-year basis to reach 367,221. During the same period the level of local movements (flights that remain in the vicinity of the airport) fell to 138,809, a reduction of 1.5%.

Overall, air traffic was up 1.1% in September 2017 as 57 airports reported more movements from the same month the previous year. Year-over-year variations of more than 1,500 movements were reported at 9 airports. Of these, 4 airports registered growth, ranging from 2,594 movements at Montréal/Mirabel International, Quebec to 1,804 at Kitchener/Waterloo, Ontario. Reductions in aircraft movements at the remaining 5 airports ranged from 5,651 at Oshawa, Ontario to 1,606 at Victoria International, British Columbia. Traffic at Oshawa was down sharply (-86%). Starting in early September, the two runways at the airport were closed due to the reconstruction of the main runway.

Itinerant traffic rose 2.1% (+7,433 movements) as 58 airports reported more movements in September 2017. The largest gains were observed at Montréal/Pierre Elliott Trudeau International, Quebec (+869 movements), Montréal/Mirabel International (+830), Vancouver International, British Columbia (+823), Williams Lake, British Columbia (+820) and Edmonton/Villeneuve, Alberta (+728). The largest reductions in movements were recorded at Oshawa (-2,880) and Toronto/Buttonville Municipal, Ontario (-1,130).

In September 2017, 48 airports recorded lower levels of local activity from the same month a year earlier. As a result, local movements decreased by 2,078 movements. Year-over-year variations ranged from a decrease of 2,771 movements at Oshawa to an increase of 2,024 movements at Abbotsford, British Columbia.

Itinerant movements: domestic, transborder and international

Domestic itinerant movements (within Canada) rose to 311,767 in September 2017, up 2.2% from the same month the previous year. The state of emergency in British Columbia first declared in early July remained in effect until September 15, the province's worst fire season on record. With a 105% increase in movements compared to September 2016, Williams Lake posted the largest year-over-year growth for the third consecutive month (+827 movements). As the home to the Cariboo Fire Centre's main office, the airport is one of the busiest wildfire response jurisdictions in British Columbia. The largest reductions in movements occurred at Oshawa (-2,821) and Toronto/Buttonville Municipal (-1,163).

During the month, 86 airports reported 41,492 transborder (between Canada and the United States) itinerant movements, down 0.7% from the level reported in September 2016. The largest decreases in traffic were recorded at Halifax/Robert L. Stanfield International, Nova Scotia (-177 movements), Kitchener/Waterloo (-133) and Ottawa/Macdonald-Cartier International, Ontario (-131). The largest increases were observed at Vancouver International (+360) and Windsor, Ontario (+72).

In September 2017, 36 airports reported a total of 13,962 other international itinerant movements, up 7.1% from the same period the previous year. Toronto/Lester B. Pearson International, Ontario was the busiest airport with 6,444 movements, an increase of 3.6%, followed by Montréal/Pierre Elliott Trudeau International (2,992 movements) and Vancouver International (2,606). Together, these three airports accounted for 86% of all other international itinerant movements during the month.

Factors which may have influenced the data

The Canadian Interagency Forest Fire Centre Inc. reported 5,305 fires covering 3,456,768 hectares as of September 30, 2017. This is an increase of 412 fires and 453,394 hectares from one month earlier, and an increase of 620 fires and 2,067,873 hectares from the same time last year.

On September 21, 2017, Porter Airlines flew its inaugural non-stop flight from Ottawa/Macdonald-Cartier International Airport, Ontario to Saint John Airport, New Brunswick. The flight will be operated daily with a 74-seat Bombardier Q400 aircraft.

On September 20, Global Affairs Canada issued a statement regarding Hurricane Maria's progress through the Caribbean, urging Canadians in areas with an "avoid all travel" advisory to leave by commercial means while they were still available. As a result of the hurricane, many scheduled flights were cancelled and rescue flights added to bring Canadians home.

On September 15, 2017, the British Columbia government lifted a provincial state of emergency declared more than two months earlier for what would become the province's worst fire season on record. The declaration was made July 7 after dozens of out-of-control wildfires broke out in B.C.'s interior, forcing thousands of people from their homes. As of September 15, there were still 155 fires burning in B.C., and 11 evacuation orders were in place.

On September 12, 2017, Porter Airlines began daily service from Ottawa/Macdonald-Cartier International Airport to Fredricton International Airport, New Brunswick.

On September 11, PAL Airlines began regular flights from Wabush, Newfoundland and Labrador to Mont-Joli, Quebec. Flights are offered once per day on Monday, Wednesday, Thursday and Friday.

On September 5, 2017, due to Hurricane Irma, Global Affairs Canada's Travel Advice and Advisories raised their warning level to "avoid all travel" for the following destinations: Antigua and Barbuda, Anguilla, Montserrat, St. Kitts and Nevis, Saba, St. Eustatius and Sint Maarten, Saint Martin, St Barthelemy, Guadeloupe, British Virgin Islands, U.S. Virgin Islands, Puerto Rico, Vieques and Culebra. As a result, many flights out of Canada were cancelled and additional rescue flights were added to bring Canadian travellers home.

On September 5, 2017, a runway rehabilitation project began at Oshawa Executive Airport, Ontario which saw both runways at the airport closed for 35 days.

The Canadian Interagency Forest Fire Centre Inc. reported 4,893 fires covering 3,003,374 hectares as of August 31, 2017. This represents an increase of 1,739 fires and 1,872,650 hectares from a month earlier. In 2016, the agency had recorded 4,832 fires covering 1,390,375 hectares by August 31.

In late August, 2017, hurricane Harvey caused the cancellation of 25 WestJet flights to and from George Bush Intercontinental Airport in Houston, Texas.

On August 22, 2017, hundreds of firefighters and dozens of aircraft were working to contain one of the largest wildfires ever recorded in British Columbia. Nineteen wildfires covering 467,000 hectares in the provinces interior merged together. The Plateau fire stretched 130 kilometers from one end to the other.

On August 18, 2017, the province of British Columbia extended its state of emergency until September 1. The extension is in response to 138 wildfires burning and approximately 25,000 people under either evacuation orders or alerts.

On August 18, 2017, the province of Alberta reported 28 wildfires. In response, the province was using 200 firefighters, two special teams of incident management personnel, 21 helicopters an air tanker crew and various pieces of heavy equipment to address the situation. The majority of the fires, including 5 listed as being out of control, were in the High Level Forest area.

On August 14, 2017, Wasaya Airways, based at Thunder Bay, Ontario, launched new twice-daily, non-stop service to Sandy Lake, Manitoba and Pikangikum, Ontario First Nations from Winnipeg, Manitoba and announced it would increase the frequency of flights between Winnipeg and Sioux Lookout, Ontario.

Operation NANOOK 2017, Canada's annual northern sovereignty operation, took place between August 12 and August 27. The Canadian Armed Forces deployed land, maritime and air components in two locations in the North: Rankin Inlet, Nunavut and northern Labrador.

On August 12, 2017, weather and reduced staffing at Toronto/Lester B. Pearson International Airport, Ontario, caused delays and dozens of flight cancellations.

On August 11, 2017, the province of British Columbia declared 2017 to be the worst wildfire season since record keeping began in 1950. Since April 1, 2017, 894 491 hectares had burned. The previous record of 855,000 hectares was established in 1958. More than 3800 personnel were engaged in combating the fires, with additional crews from New Zealand, Mexico and the United States due to arrive shortly.

On August 1, 2017, The Williams lake Airport, British Columbia was re-opened for regular travel. Although fully manned, the airport had been closed to all activity except for fire suppression since July 7, 2017.

The Canadian Interagency Forest Fire Centre Inc. reported 3,154 fires covering 1,130,724 hectares as of July 31, 2017. This represents an increase of 1,514 fires and 960,048 hectares from a month earlier. In 2016, the agency had recorded 3,969 fires encompassing 1,293,072 hectares by the end of July.

In early July 2017, numerous wild fires broke out in British Columbia. The Canadian Interagency Forest Fire Centre Inc. reported 821 fires covering 426,022 hectares as of July 31. In response, the province declared a state of emergency, issued evacuation orders and deployed aircraft to several regions to assist in the fire suppression activities.
