## Canadian Foreign Post Indexes, April 2023

These indexes are calculated to establish and adjust the Post Living Allowance (PLA) paid to Canadian government employees serving outside Canada. They are comparative measurements that numerically express the difference between the retail prices of a representative basket of goods and services at a foreign location with prices for a similar basket of goods and services in Ottawa.

Three separate groupings of indexes are provided, each among them reflecting the specific terms and conditions of service for the members of one of the following categories of personnel:

- persons serving under the terms and conditions of the Foreign Service Directives (FSDs);
- persons working under the provisions of the Technical Assistance Handbook (TAH);
- Canadian Forces members serving outside the country either under the terms and conditions of the Military Foreign Service Instructions (MFSIs) or the Foreign Service Directives (FSDs).

### Monthly release notes

This is to advise you of the renewed validity of Post Indexes calculated for the purpose of the Post Living Allowance applicable to Canadian Government expatriate personnel or persons under contract. All users must consult with Statistics Canada to ensure that the appropriate index is used.

The [Guide to the Post Index](#),<sup>1</sup> which was revised in June 2010, remains available.

Other Post Index adjustments are based on our continuing monthly reviews. These adjustments are based on shifts in the value of the respective currencies used at the post relative to the Canadian dollar. Comparative changes in consumer prices at posts and in Ottawa since the last survey at either location are also taken into account.
