Standards of service to the public

Statistics Canada is committed to serving its clients in a prompt, reliable and courteous manner. To this end, Statistics Canada has developed standards of service that its employees observe. To obtain a copy of these service standards, please contact Statistics Canada toll-free at 1-800-263-1136. The service standards are also published on www.statcan.gc.ca under “Contact us” > [“Standards of service to the public.”](#)

Note of appreciation

Canada owes the success of its statistical system to a long-standing partnership between Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

Correction notice

Canadian Foreign Post Indexes, June 2024

These indexes are calculated to establish and adjust the Post Living Allowance (PLA) paid to Canadian government employees serving outside Canada. They are comparative measurements that numerically express the difference between the retail prices of a representative basket of goods and services at a foreign location with prices for a similar basket of goods and services in Ottawa.

Three separate groupings of indexes are provided, each among them reflecting the specific terms and conditions of service for the members of one of the following categories of personnel:

- persons serving under the terms and conditions of the Foreign Service Directives (FSDs);
- persons working under the provisions of the Technical Assistance Handbook (TAH);
- Canadian Forces members serving outside the country either under the terms and conditions of the Military Foreign Service Instructions (MFSIs) or the Foreign Service Directives (FSDs).

Monthly release notes

This is to advise you of the renewed validity of Post Indexes calculated for the purpose of the Post Living Allowance applicable to Canadian Government expatriate personnel or persons under contract.

The [Guide to the Post Index](#),¹ which was revised in December 2023, remains available.

The analysis of Post Index surveys has been completed for the following locations. The results incorporate the analysis of costs for goods and services purchased in the local economy and from import sources at the time the surveys were carried out, adjusted based on continuing monthly reviews.
