^{1.} Data source: Statistics Canada, National Population Health Survey, 1994/95, 1996/97 and 1998/99, longitudinal sample, health file

^{2.} Population aged 12 and over who rate their own health status as "excellent" or "very good" for two or more consecutive survey cycles.

^{3.} Population, age and province are based on the first survey cycle.

^{4.} Data with sampling variability (coefficient of variation) of greater than 33.3% were suppressed (- -); therefore, numbers in various aggregations may not sum to the totals.

^{5.} CANSIM table number 01047011.

Table 1.1.2.2 Self-rated health as "very good" or "excellent" in 1994/95 and rating in 1996/97, by sex, household population aged 12 and over, Canada and provinces
