- 1. Data sources: Statistics Canada, Uniform Crime Reporting Survey, and Demography Division (population estimates)
- 2. Violent crimes involve offences that deal with the application, or threat of application, of force to a person. These include homicide, attempted murder, various forms of sexual and non-sexual assault, robbery and abduction. Traffic incidents that result in death or bodily harm are included under Criminal Code traffic incidents.
- 3. Property crimes involve unlawful acts with the intent of gaining property but do not involve the use or threat of violence against an individual. Theft, breaking and entering, fraud and possession of stolen goods are examples of property crimes
- 4. Other Criminal Code offences involve the remaining offences that are not classified as violent or property crimes (excluding traffic offences). Examples are mischief, bail violations, disturbing the peace, arson, prostitution and offensive weapons.
- 5. Total, Criminal Code offences, is the tabulation of all violent crimes, property crimes and other Criminal Code offences reported for a given year (excluding traffic offences).
- 6. To produce the number of "actual" crime incidents, unfounded incidents are subtracted from the number of reported incidents.
- 7. Rates are based on population estimates of police jurisdictions derived from the July 1, 2002 estimates provided by the Demography Division of Statistics Canada. The estimates are adjusted for net census undercount.
- 8. In 1997, Winnipeg Police discovered an under-recording of minor offences. It was estimated that the under-counting was approximately 5.5% for 1995 data and 11% for 1996 data. The data have been revised to reflect this.
- 9. Prior to 1999, a number of RCMP detachments in Saskatchewan were double counting the number of actual offences of impaired driving. This overcounting was corrected in 1999, therefore, comparisons with previous years should be made with caution. It is recommended that the analysis of impaired driving be based on persons charged data rather than actual offences.
- 10. In 1999, Nunavut became a Canadian territory. Therefore, a break occurred in the time series for the Northwest Territories.
- 11. In 1999, Nunavut became a Canadian territory. Data from 1996 to 1998 are based on 1999 boundaries for Nunavut.
- 12. CANSIM table number 02520013.

## Crime incidents, by offence category, Canada, provinces and territories, 1996-2002
