1. Data source: Statistics Canada, National Population Health Survey, 1994/95 and 1996/97, cross sectional sample, health file, North component

2. Population aged 12 and over who have consulted with a medical doctor/pediatrician in the past 12 months.

3. Pediatrician is included for respondents less than 18 years of age.

4. Medical doctor includes family or general practitioners as well as specialists such as surgeons, allergists, orthopaedists, gynaecologists, or psychiatrists.

5. Bootstrapping techniques were used to produce the coefficient of variation (CV) and 95% confidence intervals (CIs).

6. Data with a coefficient of variation (CV) from 16.6% to 33.3% are identified by an (E) and should be interpreted with caution.

7. Data with a coefficient of variation (CV) greater than 33.3% were suppressed (F) due to extreme sampling variability.

8. CANSIM table number 01045061.

Contact with medical doctors, by sex, household population aged 12 and over, territories, 1994/95-1996/97
