1. Saskatchewan conducted a limited pilot of seven ministries in 2007/2008. The difference in expenditures contributes to the differences between the 2007/2008 pilot survey and 2008/2009 data results including fifteen ministries. A large one time capital expenditure increased related scientific activities expenditures in 2008/2009. Research and development expenditures increased in 2009/2010 due to actual data being received for a ministry which previously provided estimates.
2. Since 1994/1995, the Quebec provincial government collects only research and development activities. These research and development expenditures are not included in the science and technology totals.

Note(s): Components may not add to total due to rounding.
